

Exchange-for-Refurbished PC Boards Policy

Purpose Avery Weigh-Tronix (Company) offers for sale to qualified distributors certain printed circuit boards that have been refurbished by the Company repair department. When traded for a repairable core, refurbished boards are half the cost of a new board.

Availability The Company makes available for sale only a select group of refurbished boards based on criteria related to new board populations and net price of individual boards. See Appendix A for current list of boards that may be offered for sale as refurbished stock.

Pricing Refurbished boards are priced as new boards.

Credit for Exchange The Company offers credit for repairable boards exchanged for previously-purchased refurbished boards. Company will credit customer an amount equal to 50% of the net price paid for a previously-purchased refurbished board.

To qualify for credit, the board offered for exchange must be accompanied by a completed RMR form bearing the sales order number of a previously-purchased refurbished board. RMR forms are available for downloading from the company web site, www.wtxweb.com, under the "Sales & Service" category, "Warranty Form" link.

No Credit for Non-Repairable Boards No credit will be given for pc boards that are non-repairable. A non-repairable board is one that includes, but is not limited to, any of the following conditions: foils and traces burned or cracked, broken and cracked boards, moisture damage, excessive corrosion, components physically damaged, lightning or surge voltages.
